

THE WELL READ MASON

THE BUILDER

Dear Reader,

This book was referenced in one of the 185 issues of 'The Builder' Magazine which was published between January 1915 and May 1930. To celebrate the centennial of this publication, the [Pictoumasons](#) website presents a complete set of indexed issues of the magazine. As far as the editor was able to, books which were suggested to the reader have been searched for on the internet and included in 'The Builder' library.'

This is a book that was preserved for generations on library shelves before it was carefully scanned by one of several organizations as part of a project to make the world's books discoverable online. Wherever possible, the source and original scanner identification has been retained. Only blank pages have been removed and this header-page added.

The original book has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books belong to the public and 'pictoumasons' makes no claim of ownership to any of the books in this library; we are merely their custodians.

Often, marks, notations and other marginalia present in the original volume will appear in these files – a reminder of this book's long journey from the publisher to a library and finally to you.

Since you are reading this book now, you can probably also keep a copy of it on your computer, so we ask you to Keep it legal. Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book to be in the public domain for users in Canada, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country. Please do not assume that a book's appearance in 'The Builder' library means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

The Webmaster
